Greetings to the Seniors

You, Class of 1939, are about to leave your high school, some to attend higher educational institutions and some to take their places in the world of industry. No matter where we look, the future does not seem very encouraging, yet the world needs leaders today as it has never needed them before. What is to be done?

People will expect more than you can give, you will meet the most perplexing problems. Because of this, it is important to make use of every opportunity as it presents itself. Be honest, reliable, tolerant, kind, and generous. Have courage, meet the world and its problems with head erect.

Remember that the starting line is always crowded with contenders but as the race is being run the field spreads out and finally the one with the greatest amount of stamina and perseverance is the one to win the race. Be satisfied to occupy the lowliest position but do not stay there. Conduct yourself in such a manner that you will gain the confidence of your community which will then recognize you as one of its leaders.

A Message to the Graduates

You of the graduating Class of 1939 are going out into a highly transitional world. Confusion, discouragement, and conflict are everywhere. Shall your coming merely add another million to the mass of unemployed? Shall you worry away your energy in idleness and complaint? Or shall your coming mean a new stream of vitality, courage, and intelligence flowing into the currents of national life? Whether it shall mean the one or the other depends in the end upon you. Sound personal habits, disciplined minds, trained skills, and constructive citizenship will tell in the end. Determine to make the best use of your training and ability.

Without a doubt, you are anxious to earn your own way and to have your part in the world's work. You cannot begin too early to observe how the world's work is done and to think of your relation to it. Do you know how to look for a job and to apply for it? Do you know how to hold a job once you find it? Have you trained yourself to get along with people, to carry out directions? If you cannot find employment immediately, continue your preparation and self discipline.

May your hopes and dreams be realized to the fullest degree, and in the years to come, may your names reflect credit upon your alma mater.

"Ray" came to us in the Junior year. He has been one of the most popular fellows in the senior class. He is always ready to help anyone at all times. Class Poem

Now that parting time is near
In our thoughts we dream our dreams;
Not only of the past so dear—
Even future hopes, it seems,
Travel dimly through our brains.
Endless pleasures we have shared
Ever working for our gains;
Never caring how we fared.

Twelve years have passed; some fast, some slow;
However, we have tried our best;
Indeed we hope we've made a show
Regardless of the work that steeped.
Time has brought us many joys;
Yearly treasures we have reaped.

Now, it's time to say farewell;
In our hearts we pine and sigh—
Not for books, but friends—ah well—
Emmaus High School—goodbye!

FAYE YOACHIM AND MARY BUSS.

Senior Class History

History is a record of man, so say the historians. This history concerns only 92 MEN, and WOMEN; in other words, the Class of 1939.

These 92 students entered the Emmaus High School in 1936 as "corny" freshmen, who thought they knew something of the world at large. But were these freshmen surprised when they discovered they were nothing but a cluster of green grapes in the vineyard of education!

These scholars (a-hem) decided to have a Hallowe'en Party and every one attending this shindig had a grand and glorious time. The year slipped by so fast that it was June before these freshmen knew what had happened.

Two months passed quickly, and again our friends labored at their "readin', ritin', and 'rithmetic." Our Sophomore friends decided to have another jamboree, and since they had had so very much fun at their first Hallowe'en party, they decided to have another. The second one was as much of a success as the first.

The mid-year was soon over and their Sophomore year was coming to an end, when some bright little cherub looked into his handbook, and to his surprise and amazement found that sophomores were allowed two social functions a year. Were these kids surprised, or were they? They were! Their class president called a class meeting and our friends decided to have a "Sophomore Hop." Gosh, but these cherubs were excited! They walked through the corridors with their heads held high, 'cause their class was the first class of sophomores ever to hold a dance. Boy, oh boy!!! The dance came and went with little excitement for the Sophomores, of course. Soon, very soon, after that, June 22nd rolled around, which meant a whole two months of no worries. At least no school worries.

On September sixth our friends again entered the old camping grounds. This time they were Juniors! Thing of it — Juniors. This meant that, next to the Seniors, they ran the high school—(they hoped!) Among this population of 117 were found several who had athletic ability (real he-men); others who had oratorical ability; and some who could sing.

These socially minded Junior friends had soon made plans for their first social function, which was another Hallowe'en party; only this time it was a dance. At Christmas they had another dance; for what would Christmas be to the Juniors without a dance to prove to Saint Nick that they could really be good boys and girls?

In April, the big occasion finally arrived — the Junior Prom — the largest prom ever to be held at the Owl's Home.

Several years previously, some Junior class had begun the custom of sponsoring a farewell dance for the upper classmen. Our Juniors did their

Emmaus

THE 1939

part in furthering this custom by sponsoring a rip-roaring dance for the so-called dignified Seniors, in the form of a "Hobo Dance." That dance made history!

Before these jolly Juniors had chance to say "Jack Robinson," the school had locked its doors for another two months.

That last vacation went by like lightning. In another "Jack Robinson" those same familiar faces entered the same familiar institution of learning, but its name was changed; from the **Emaus High School** to **Emmaus High School**.

1938-1939 being the last year these students had in school they decided to use it to good advantage, not to spend it only on recreation. Besides athletes, orators, and songsters, we found that there were several Greta Garbos and Robert Taylors who staged two magnificent plays.

June 22nd arrived so quickly that it took a long time for these students to realize they were graduates of the Emmaus High School.

Class Prophecy

The ambition of the world peace makers, that there would never be a World War again, had not been realized. About the middle of the twentieth century the world witnessed the worst war it had ever seen. Immediately thereafter followed a period of reconstruction. Because a southern country had neglected to provide for its self-defense, that country was overtaken by the queerest man who ever paced this old earth. Several years before the terrible war this man had instilled fear into the hearts of the people throughout the world by bringing to life a destructive monster that had been created by his father. But during the war this man killed the monster by pushing him into a pit of boiling sulphur. The man was none other than Wolf Frankenstein who had now changed the name of this southern country to Elasco. A fortress of fear was built under his direction, and called Bucyrus.

At Bucyrus were located his large laboratories, offices, and archives. The fortress was, in reality, the capitol of the country. Except for this one aggressive and scientific city, the country was progressing no faster than it always had even though it was under the supreme rule of this reputed fiend. People went about their business as before, with the same ambition and cheerfulness. Despite the fact that the people thought they were being ruled by a fiend, he was doing everything in his power to make this country the best and mightiest in the world. Frankenstein had achieved his one ambition: to become ruler of a large country, and then to be non-imperialistic.

Emmaus

T A T T L E R

It was during this stage of world progress that we, Phyllis Schantzenbach and Wilbur Paules, decided to pay a friendly visit to this great monarch. Our homes were located a great distance from Bucyrus. Because of the topographical conditions of this southern country, we were going to use different means of transportation.

We left home early one morning in spring. As the first part of our trip was to be taken by airplane, we hurried to get to the airport on time. Suddenly the fate which befalls all speed demons came upon us. We heard the shrill note of a policeman's whistle, and came to a halt. A state Motor Policeman, with broad shoulders and a stern face, approached us. We looked at him with a feeling that we had seen him before. Yes, it was our good friend Martin Kline. He was overjoyed at meeting us, and when we departed, the ticket was still in his possession.

At last we were at the airport. Here we were introduced to our pilot, Earl Deibert, who had realized his boyhood ambition.

As we entered the office building of the airport, we noticed on our left a large bulletin board. We saw a poster stating that Arlene Hersh, the famed aviatrix, was to appear at that airport in two weeks. She was going to give a stunt demonstration assisted by her able attendant Mary Buss.

Our pilot flew us to our next destination, at which we were to spend the night. When we arrived, it was early afternoon; so, we decided to seek some entertainment. First we selected a beautiful hotel for our night's lodging, and found that the hotel was owned by William Schuster. We asked him about some good entertainment for the afternoon. He suggested, "Why don't you go to see Dick Martz and his Daredevil Demons?" Because of the desire to see Dick once again, we departed immediately to see this supposedly great show. Dick had organized a group of men into a great show of daredevil driving with motorcycles and automobiles. We enjoyed the performances very much. We discovered that William Trumbore, Raymond Bernhard, Ralph Stauffer, and Michael Hopstock were the most daring of the demons. Dick had hired these men because he knew much about their excellent characteristics and abilities.

It was evening when we came back to our hotel. There we saw and heard Warren Zentner and his swing band putting on an appealing performance. He told us afterward that William Keck and his jazz band, starring trumpeter William Moyer, were to appear at the hotel the following evening. Athelda Jones realized her pet ambition in becoming the wife of the celebrated trumpet player.

We spent the night at the hotel, and prepared to leave by train the next morning. At the railroad station we saw Theodore Reitz and Dorothy Danner employed as secretary and stenographer for the railroad company. They informed us of the fact that both Lorraine Swavely and Margaret Vetrosky had married several months ago.

Emmaus

THE 1939

While traveling on the train we met Walter Stoudt, a printer, accompanied by Richard Miller, who had won a contest in his friend's newspaper, and was going north for a tryout with a moving picture company.

Our next stop was a city located on the shore of a very large lake. On arriving there, we asked an insurance man, Donald Laudenslager, about berths for the night. He recommended the hotel managed by Wesley DeVries, and co-managed by Robert Shive. We told Donald that we were glad to have seen him again, and then drove to our prospective lodging place.

Upon arriving, we soon learned that Ravellan Neitz and his swing band were to appear at a night club that evening. This night club was owned by Oscar Iobst and Howard Yarus. Guy Wambold and his orchestra were to appear at the night club the following evening. We also learned that Fern Walter was making quite a hit as an ice skater at the local arena.

We retired to our respective rooms late that evening, and enjoyed a good night's sleep.

As a boat was not due in town for the next two days, we decided to observe a little of the vocational and educational side of life. But early the next morning, as a result of not feeling quite well, we went to the Municipal Hospital for a checking on our physical conditions. There we met Beatrice Gehman and Marilyn Miller, who were handling the secretarial duties of the hospital. As we passed through several wards of the hospital. To our surprise we met several of our classmates, who had become efficient and reliable nurses. Gladys and Sarah Jane Bauer, Eleanor Bennett, Ruth Montz, and Pauline Woodring all were glad to see us. We were told that Faye Yoachim, Pauline Noll, Evangeline Schuler, and Hazel Hartman were also employed as nurses at a nearby hospital. Charles Miller had become an honored doctor at that same institution. Just before noon time we were discharged with assurance that our physical conditions were excellent.

That noon we were very hungry, and decided to patronize the first neat looking lunch room we would see. Soon we spied a very appealing restaurant, which we entered. We saw with pleasure, Julia Walter and Gloria Wenig discussing the financial statistics of the establishment. The girls were glad to see us, and hoped that Noble Faust would arrive for his meal before long, so that he could see us again. Noble had become a United States Government meat inspector.

During the afternoon we visited Charlotte Long, girls' physical education teacher at the local high school. We also visited John Kratzer, an airplane designer, at a designing concern. At the high school we met several important teachers, among them Jean Druckenmiller, who had become a musical instructor; Carl Adams, who was handling the industrial arts job at this institution; and Charlotte Treichler and Jeanne Engleman, two efficient home economics teachers.

Emmaus

T A T T L E R

Having had the pleasure of meeting several of our good friends at the high school, we went to the designing concern. As we entered the office of the designing company, we saw Grace Haberstumpf, who was employed as a stenographer, and Arlene Rader, who was a guide for visitors. Arlene accompanied us to the department in which Kratzer was laboring. John took us to the architectural designing department, where we saw Earl Hertzog and Joe Smoyer planning a proposed dwelling for the mayor of the city. Earle Keller, an efficient display window "dresser," was assisting the two men. They told us that Betty Moyer, an artist, had gained considerable recognition for several of her paintings.

Late that afternoon we returned to our hotel for the evening meal. While enjoying almost all the delicacies on the menu, we listened to the radio. We heard a program which presented James Stansfield at the console of the organ, accompanying Mae Renner, who gave vocal interpretations of the melodies he played.

We enjoyed another night of good sleep, and then prepared to continue our vocational and educational expedition. Between breakfast time and noon-time we visited a large newspaper concern, and a spacious farm. At the newspaper concern we found Maynard Bealer, a telegrapher; and Hamilton Carl and Richard Correll, two reporters for the publication. Mrs. Correll's little boy, the gossip-gatherer, told us, before we left, that Jeanne Mohr had become a telephone operator, and William Markel, a radio engineer.

After leaving the newspaper concern we visited the large farm owned by Milton Crossley and Bernard Gardner, who told us that they had been corresponding with William Kriebel, also a scientific farmer. We were told that Elizabeth Kerak and Mary Christman, who had realized their ambitions, were residing in the nearby vicinity.

One of the places we toured during the afternoon was an engineering corporation. Gerald Sechler, Harry Horn, and Elwood Backensto were employed there as chemical engineers; Wallace Barto and Asher Frankenfield, as mechanical engineers. All of them were doing very satisfactory jobs. About mid-afternoon we left the engineering corporation, to go to a dairy operated by Edna Smith and Arlene Bieber. They informed us that Jean Merkel and Lorraine Stoudt had settled down, and married. Arlene Bieber told us, "Would you like to hear some very good news? Charles Albright was here the other day. He wanted us to operate a dairy in his vicinity, so that the people could get some fresh milk every day. You know, Charlie had gone north, and become a very important citizen in some town up there." And then she said, Yes, Charlie took Alvin Marstellar, the undertaker, and social worker Karl Geisinger with him on his last return trip. We expressed our joy at having heard about so many of our dear classmates, and then said we had to hurry back to the hotel.

Emmaus

T H E 1 9 3 9

As we were leaving, we walked into Wilbur Schantzenbach. Wilbur told us that he was going inside to place an order for Grade A Milk. He wished to use the milk at his training table, as he had become a famous athletic coach. After a chat of a few minutes, we left "Wip" to go to our hotel.

Late that evening the manager of the hotel came to see us. He had looked up references on some of our classmates, and wished to tell us some of the good news.

He related, "Esther Bechtel and Evelyn Gilbert are partners in a hair-dressing shop, located in a downtown section of the city. Evelyn told me that Anna Hauser, who has become a novelist living nearby, is one of their best customers. Harvey Cope has become a respected and well-liked citizen and John Erich is president of a large bank. Virginia Esterly is associated with a traveling fashion show, and is recognized as one of their most beautiful models." We were very glad to hear about our friends, and to our surprise he had more news. He told us that Harvey Eck was earning large sums of money as a golf pro at a large country club. Having told us all he knew, the manager bid us farewell, as we were to continue our trip by steamship early the next morning.

As we entered the ship, we were instructed to report in the captain's cabin. On arriving there we found that the captain was none other than Bernard Neumoyer. He was very glad to see us, and told us that he had recently bought some shares in an organized baseball club.

We told him all the good news that we had heard during the last three days. When we were finished, he said, "You think you have good news! Well, I have the cream of the crop for you. Franklin DeEsch has joined the navy, and Jack Boyer has become a national forester." We certainly were overjoyed, because we knew that these two classmates had worked so patiently, and had succeeded.

With the satisfaction of knowing that the entire 1939 class of Emmaus High School had succeeded in whatever ambitions they possessed as high school students, we retired to our respective cabins for the rest of the day. Now that all our classmates and their successes were accounted for, we had a renewed interest in the great Ruler, whom we were to meet one day hence.

FOOTBALL

The Emmaus high school football team, of the 1938 season, established a record of six victories in ten contests. Other than having attained a higher average, in wins and losses, the team figured in a three-way tie for second place in the Lehigh Valley league. The success of the campaign was due to the patient work of the Coaches, and to a team consisting mostly of experienced players.

The graduating members of this season's team are as follows: Captain Wilbur Schantzenbach, Earl Hertzog, Karl Geisinger, Franklyn DeEsch, Wesley DeVries, Guy Wambold, Harvey Cope, Martin Kline, and William Shuster.

We, the graduating members of this season's football squad, offer our record as a challenge to the future football teams representing Emmaus high school.

Boys' Basketball

This season's Emmaus high school basketball team was left out in the cold in many of its contests. Although in many events our local crew outplayed its opponents, we seemed to lack something in the closing minutes of the games.

The school will miss the graduating members of this year's team, namely: Wesley DeVries, Wilbur Schantzenbach, Harvey Cope, Richard Martz, and substitutes Asher Frankenfield, Earl Deibert, and Harvey Eck. Even though we are losing these good players, we need not be down hearted, for judging by the Junior Varsity's performance we shall have a good team next year.

The Varsity won 7 games in 24 encounters, while the Junior Varsity won 11 games and lost 13.

Here's wishing next year's team the best of luck.

Girls' Basketball

In the beginning of the Basketball season the Girls' Team made only fair progress. Under the able leadership of Miss Cook, who served her first year as Girls' Physical Education Director, the team underwent a reorganization and retaliated at the close of the season completing their schedule with a total of five victories, six losses, and one game resulting in a tie.

The following members of the team are graduating: Margaret Vetrosky, Charlotte Long, Captain, Elizabeth Kerak, Ruth Montz, and Pauline Noll.

We wish Miss Cook and her Basketteurs lots of success in years to come.

The girls' completed the following schedule:

TRACK

The Emmaus high school Track Team has undertaken a heavy schedule this season. Thus far "Lady Luck" has smiled upon us, and we hope she will continue to do so in the future. The team won another trophy for the school by taking the annual triangular meet with South Whitehall and Slatington

high schools. The relay team, however, could not quite win the "third leg" on that respective trophy, and consequently will have to make a new start next season. Let us hope that our good luck may stay with us this year as well as in the years to come.

Debating Club

Each of the eight seniors who came out for debating tried to prove his side of the question, "Resolved, That the United States should establish an alliance with Great Britain."

The teams consisted of: Affirmative, Lorraine Swavely, Michael Hopstock, and Jessetine Carter; negative, Dorothy Danner, Evangeline Schuler, Mae Renner, Walter Stoudt, and Mary Buss. The competent coach was Mr. Benfield.

Both teams were unsuccessful in the triangular, the affirmative losing to Catasauqua, and the negative to Slatington.

Northampton was on the list of opponents for the first time. Their affirmative met with defeat at the hands of Emmaus' negative while our affirmative lost to the opponents.

South Whitehall and Hellertown completed the list of opponents.

On the whole Emmaus had quite a successful season.

High School Band

The Emmaus High School Band was organized by Mr. Jagnesak in the Fall of 1936. Since then the band has advanced farther than any other of our extra-curricular activities. At the time of its organization the band consisted of only twenty-five members. For the annual spring concert in May the band will consist of approximately sixty-five members. By the end of the year the Junior Band will consist of approximately forty members.

The band made its appearance at the football and basketball games and will again take part in the annual field day held by the Emmaus Public Schools.

Last summer the band was honored by the invitation to participate in the annual Four-County Firemen's Parade held at Easton. The band will again play a concert for the T. P. A. at the Americus Hotel in Allentown.

The band entered the band contest sponsored by the Forensic Music League held at Northampton. Although this was the first time our band had entered such a contest it did well in capturing second place.
